Lay the first board. Place the flat angle brackets on the four corners of the board.

Attach the second board, the one with the big window.

Attach the third board, the other one with the big window.

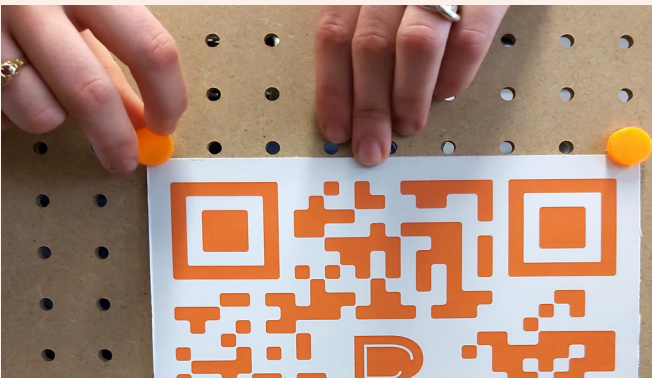

Attach the fourth board, like on the picture. Place the flat angle brackets.

Place the « ME » board with the writing on top of the structure.

Place the hooks. Pass the transparent thread inside the mask, like on the picture. Attach the thread to the hooks.

Use the plastic nails to attach the flashcode to the side of the board.
